Midwest Enviro
SOLUTIONS

Our Community Wellness Initiative

Due to overwhelming attention on how infectious diseases can spread and impact our daily lives, health and livelihood, there is an outcry to implement improved precautions to better protect our communities.

At Midwest Enviro Solutions and BCN, we not only have the means to help protect the health and the community, but we feel a **strong responsibility to.** We go above and beyond those means to ensure each and every environment takes the necessary precautions to properly protect their employees and the public.

We sanitize work spaces with EPA approved, WHO and CDC recommended products to treat COVID-19. Using these products, we have developed a Community Wellness Initiative.

The 3 following options will immediately help safeguard your work environment:

Option 1: Twice-A-Week Fogging

- Includes Product Maintenance Kit

Option 2: One-Time Fogging

- Includes Surface Protectant
- Includes Product Maintenance Kit

Option 3: Deep Clean & Sanitization

- For businesses currently closed
